

Convenient & Eco-friendly Junk Removal Service

Junk removal made easy

Friendly, uniformed crews who clear your junk from anywhere on the premises, take it away for disposal, and sweep up before they go. Junk is taken to licensed waste facilities, recycled or passed on for reuse. Rates include labour and are based on the volume of space used in the truck. Minimum load size is one cubic metre.

Anything that's too big for the bin

We clear anything unless it is hazardous or requires mechanical lifting equipment. Typical items include furniture, flooring, bric-a-brac, electrical appliances (including fridges & TVs), books, textiles, garden refuse, refurbishment and DIY waste.

Environmentally responsible

Waste Management & Recycling Company of the Year finalist in the 2010 and 2011 National Recycling Awards and ISO 14001 accredited, we divert from landfill more than 80% of everything we collect by reusing or recycling items wherever possible and also operate a carbon neutral fleet of vehicles.

Booking is easy & obligation free

Call us on 0207 819 9000 or visit www.anyjunk.co.uk to get an indication of price and book a collection time. Once on site your crew will provide an exact quote and, if you are happy to proceed, will undertake the clearance there and then. If not, no problem as the visit is obligation free.

UK's  junk removal company

About AnyJunk

AnyJunk is the UK's largest junk removal company. Our clients include many of the country's leading landlords, property managers and facilities management companies. Extensively featured in the press, we have won awards for our customer service, eco-friendly practises, and use of technology. Rubbish clearance shouldn't mean rubbish service, and our mission is to make sure it never does.

80%+ Recycled
