

BISHOP'S MOVE

**THE TAILOR-MADE
MOVING SERVICE**

Expert advice to expert packing, Bishop's Move offer a first class removal service to any destination

THE PERFECT PARTNER FOR YOUR MOVE

TRUST US TO MOVE YOU

Whether you're relocating to a new home in Europe or worldwide, moving within Spain or simply looking for practical storage, we have the solution.

The key to a stress-free move is careful planning. Our expert consultants will work with you to ensure that your move goes without a hitch, from start to finish. We will guide you through the various options, from packing and transportation through to routing and delivery, including air freight and deep-sea services.

Over the last 150 years we've moved literally hundreds of thousands of people, families, pets and personal effects. With so many years of experience in moving our clients to destinations all over the world, we provide an unrivalled service from our bases throughout Spain. And with Bishop's Move, you don't need to worry about red tape or small print. Instead, you can take advantage of our expertise in preparing international paperwork and trust us to deal with complex customs regulations.

WHEN IT COMES TO PACKING, OUR SOLUTION IS SIMPLE

PACKING THE EASY WAY

You can pack or we can do it for you. If you choose the latter, a team of professional packers will carefully pack each item for you, making sure it is suitably wrapped for transportation. If any items need to be specially wrapped for export, we can do that too. No matter how fragile or awkward the item, we have a carton or packing material to protect it. Decide to pack yourself and we can advise on the best materials and cartons to ensure your belongings stay safe at all times.

PART LOADS, SPECIAL LOADS OR FULL CONTAINERS

TRANSPORT AND SHIPPING

If you need to transport smaller quantities of items and can be flexible on delivery dates, part loads can be a cost effective answer. Vehicles carry shared loads to various addresses and once a date for your delivery is scheduled, our operations team will contact you to make the final arrangements.

Special loads or full containers are ideal if you're transporting a larger quantity of effects or if you need your belongings to arrive on a specific day. This service gives you the sole use of an entire metal container and is a faster, more direct option. There's no consolidation period so the delivery of your effects can be scheduled to take place on the exact date you need. Better still, if access permits, the container can be loaded and sealed at your home.

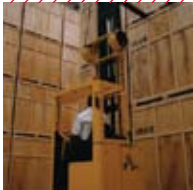

Meeting your individual requirement

Transportation, routing, packing and storage

STORAGE WHEN AND WHERE YOU NEED IT

SECURE STORAGE

Bishops Move are one of the only removal companies who can offer secure warehouse storage facilities in Spain. Containerised storage gives you the flexibility to store almost anything, from just a few items to your entire house, long or short term. Whatever you choose to store with us, your possessions will be itemised and packed into bespoke wooden containers to ensure they stay clean and secure. Our storage facilities are purpose-built, fully alarmed and insured, and with advanced retrieval systems, we can quickly locate your items whenever you need them.

WE GO THE EXTRA MILE

OUR FLEET

As you'd expect, all of our vehicles have phones and the majority are fitted with state-of-the-art satellite tracking systems so we can continually monitor our vehicles, and your effects, wherever they are. When it comes to insuring your goods, our move consultants can advise you on insurance cover and arrange it on your behalf if required*.

CONTACT US

With branches throughout Spain, we can provide you with expert advice and assistance. Call now and lets start planning your move.
